

# 9. Venus Flytrap

Opponent  
Christos Michos

# Theory

Pros:

He explained well the theory

The theory was relevant to the experiment

Cons:

He missed some important parts of the theory

# Experiment

Pros:

The results were presented with good graphs

Cons:

He should examine more digesting ways that the plant uses

# Conclusions

The theory was missing some important parts

The experiment was nicely conducted but more variables were necessary

Thank you
