

*The 8<sup>th</sup> International Young Naturalists' Tournament*

# **Opposition to the problem № 16**

***Alina Nedikova***

***Team «Element»***

***Russia, Novosibirsk***

***[chnmk@mail.ru](mailto:chnmk@mail.ru)***

## Strength sides

**Analysis of available data**

**Technical level of the presentation**

**More attention to experiments**

**Quality of the experimental part:**

**Quality of theoretical research**  
**Don't said out water**

## Weak sides

**Graphs**

**Don't have aim, predictions**

# Analysis of the solution №16

Questions for discussion:

1. How does the ratio of products affect the quality of the soap?
2. How did you determine the quality of the soap?
