

Weight

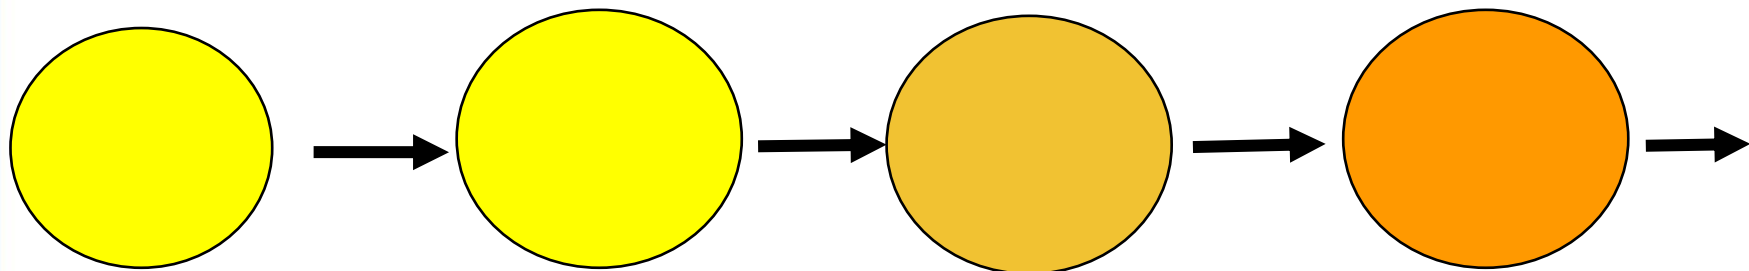

Question

To study the influence of various factors on changes in the weight of the selected organism.

SPEAKER'S STATEMENT

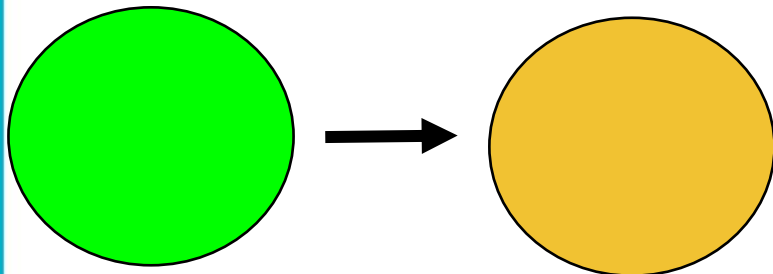

EXPLANATION

THEORY

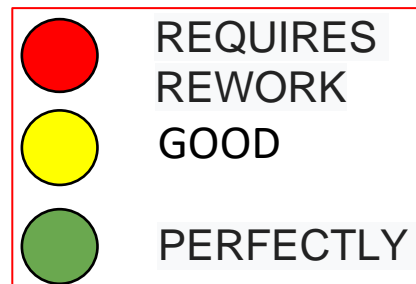

EXPERIMENT

COMPARISON

QUESTIONS
ANSWERED

PRESENTATION
LEVEL

THEORY SPEAKER

+

1. theory for stress
2. clear explanation of phenomenon
3. have hypothesis
4. expectations
5. Showed a lot of aspects that have impact
6. Simple theory that shows what will happen during the experiment

-

1. do not provide other factors excluding stress and cortisol releasing
2. no clear understanding the weight of animal after stress
3. Graph nor clearly understandable
4. Theory have predictions , but cant provide point of mass after experiment
5. Did not investigated all aspects
6. A lot of russian words

EXPERIMENT SPEAKER

+

1. understandable experiment
2. well produced experiment with animals

-

1. Experiment does not consist other animals
2. experiment did not provide other way situation
3. experiment does not consist human
4. havent investigated errors and affection of environment

TOPICS FOR DISCUSSION

1. What will happen if it will be human
2. Experiments with other animals
3. other factors

thanks for your attention
