

# 6. EYE COLOR

Team Croatia  
Opponent: Elena Lukačević

# THEORY

## Pros:

- Covered dominant and recessive genes
- Calculated probabilities

## Cons:

- No hypotheses
- Didn' explain exceptions

# EXPERIMENT

Pros:

- Different generations

Cons:

- Small sample, only inside the families
- No categories of people

# RESULTS AND CONCLUSION

Pros:

Cons:

- No discussion about eye color inheritance from the results

# POINTS FOR DISCUSSION

- Statistical tests
- Collecting data

**THANK YOU!**

**Team Croatia**  
**Opponent: Elena Lukačević**
