REPORTER

- Video
- Successful but short flight
- Multiple experiments and modifications
- Correctly determined parameters in conclusion
- No measurements

Analysis of problem

Theoretical introduction

Hypotheses

Experiment

Analysis of data

Conclusion

- Very good
- OK
- Not so good
OPPONENT

- Asked questions about parameters
- Good statement, noticed the lack of theory and hypotheses
- Noticed the lack of measured parameters
DISCUSSION

- Forces on the hot air balloon?
- Why won’t the simple bag fly?
- How does the additional load affect the results?

- Reporter answered well
- Interesting points
THANK YOU!
