

№15 Biological clock

Sofiya Sayenko

Team Bobek-Almaty

Reporter's pros & cons

Pros

- Qualitative theory
- Ability to answer the questions
- Explained how experiment was conducted
- Had calculations
- Added many chemicals in experiment

Cons

- Lack of purposes
- Absence of photos Proving experiment
- Used only one type of plant
- Not clear experiments because we didn't understand how many times you repeated them
- Didn't clearly explained why he used different chemicals

Opponent's pros & cons

Pros

- adequate questions
- understanding of the problem

Cons

- no suggestions for the reporter
- opponent did not search for correlation
- didn't mention questions about circadian rhythms
- was addicted only on parameters
- interruption towards the reporter
- questions not relevant to reporter's presentation, they related to opponent's presentation
- repeated questions

Discussion

- Ability to reply to the questions
- Reporter said that the temperature isn't important but opponent said another, for better understanding this problem we need to measure this parameters
- opponent was able to invite the reporter to discuss

Thank you for your
attention !
